ARTFUL ACOUSTICS

With Artful Acoustics, YOU'RE the designer. Choose a print from our Art Deco, Industrial, Oceanside or WoodPrint Collections to add drama and charm quickly and easily to your space. Our foolproof installation templates and hardware will be our little secret and the key to your success in creating a masterpiece.

INSPIRED BY
MOTHER NATURE
WOODPRINT PANEL KIT

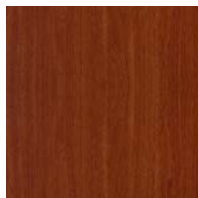

NATURE COLLECTION WOODPRINT

Bring the outside in with panels from our Nature Collection. Our WoodPrint designs closely resemble the look of natural wood with their fine veining and natural hues. Lighter, less costly and more sustainable than natural wood, you can feel good about your selection without compromising your aesthetic desires.

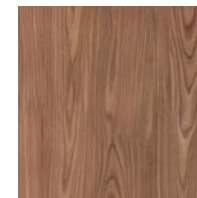

Natural Pine

Elegant and understated, Natural Pine is a stand-in for real wood products, offering thin and subtle veining and the uniqueness of natural wood. Add Natural Pine WoodPrint panels to brighten a space and complement most any type of décor.

Red Mahogany

With its fine grain and attractive red coloring, Red Mahogany is a versatile addition to interior design, helping to bring out the depth of accompanying natural materials like leather or marble. Strong enough to stand out as a focal point, Red Mahogany can also complement art pieces or strong pops of color.

Rich Oak

Our Rich Oak panels are decidedly warm, helping to introduce both orange and brown undertones into a space. Pair Rich Oak with metal or wood products for an industrial look or lean into classic or contemporary interior design – Rich Oak can work into most any design type with ease.

Classic Gray

The name says it all. You can't go wrong with this classic shade. Earthy and moody. Subtle and understated. Depending on your lighting and décor, Classic Gray can act much like a chameleon, shifting into the hue you desire.

FINISH

Straight, flat, wrinkle-free surface

Tailored corners

Choose 1 of the 4 standard color options:

Classic Gray

Rich Oak

Natural Pine

Red Mahogany

Due to inconsistencies in dye lots and fabric tolerances, our WoodPrint panels exhibit variations in their grain patterns. The overall appearance is one that more closely mimics the look of real wood.

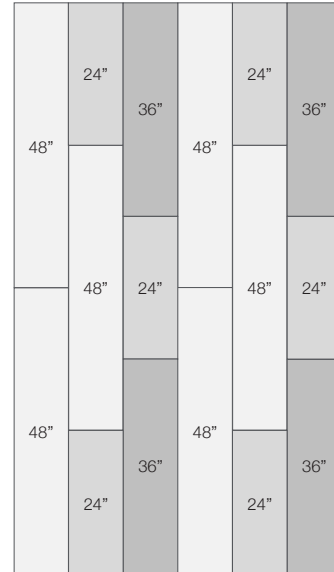

SPECIFICATIONS

Each kit contains 16 panels and covers 32 square feet of wall space.

LEAD TIME

Ships in 15 business days via UPS

CONFIGURATION OPTIONS

CONFIGURATION #1

6 each: 48" x 8" x 1"
4 each: 36" x 8" x 1"
6 each: 24" x 8" x 1"

COMPOSITION

6-7lb Fiberglass core

16-20lb High density fiberglass face

ACOUSTICAL DATA

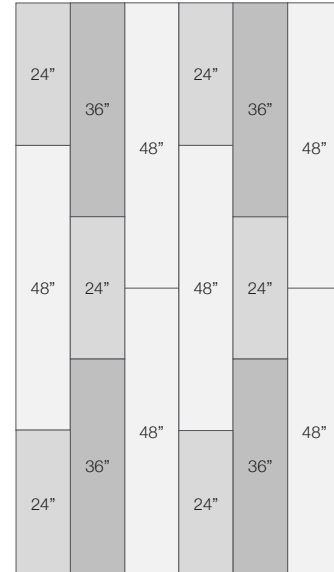

Frequency (Hz)	125	250	500	1000	2000	4000	NRC

INSTALLATION

Adhesive + impaling clips

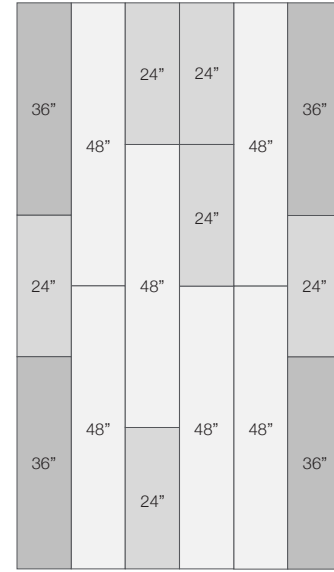

FIRE RATING

All components are ASTM E84—Class I/A

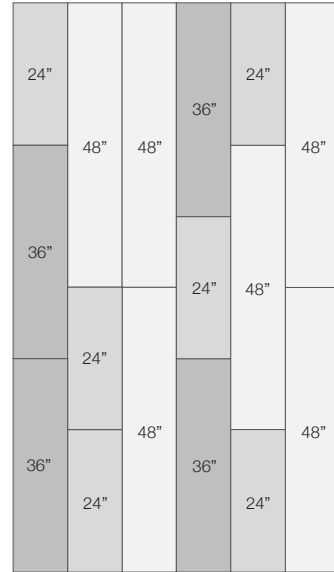

CONFIGURATION #2

6 each: 48" x 8" x 1"
4 each: 36" x 8" x 1"
6 each: 24" x 8" x 1"

CONFIGURATION #3

6 each: 48" x 8" x 1"
4 each: 36" x 8" x 1"
6 each: 24" x 8" x 1"

CONFIGURATION #4

6 each: 48" x 8" x 1"
4 each: 36" x 8" x 1"
6 each: 24" x 8" x 1"

ART DECO COLLECTION **DIAMOND**

If you're longing for the design drama of the 1920s, you'll find it in our Art Deco Collection. Sleek, modern, and eye-catching, designs in this collection can act equally effectively as both art pieces and acoustical treatments. Decorate with Art Deco and ignite imagination while improving acoustics.

IMAGINATION**
ART DECO PANEL KIT

Nouveaux

Diamonds are everyone's best friend. This angular design is both dramatic and eye-catching. Choose the Nouveaux print if you're in the market for a timeless piece of art that can keep up with your changing design trends, seasons or accent pieces.

Jewel

The tones of our Jewel print are a bit richer than Nouveaux and perhaps work best with more modern or contemporary interiors. Play off the colors featured in the print when selecting other finishes, or find complementary colors in the color wheel for a more playful design.

COMPOSITION

6-7lb Fiberglass core

16-20lb High density fiberglass face

FINISH

Straight, flat, wrinkle-free surface

Tailored corners

Choose 1 of the 4 standard color combinations:

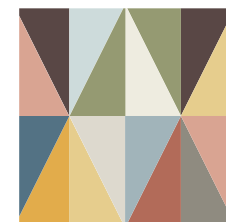

Nouveaux

French 75

Jewel

Gimlet

1" Thickness	0.19	0.44	1.00	1.06	1.00	1.05	0.90

OCEANSIDE

Quickly and easily transform your space into the haven you desire. Channel your inner designer to achieve an awe-inspiring and truly unique aesthetic that is as beautiful as it is effective at dampening sound to a breezy whisper.

Sea Grass

Sea Grass is a sensory marvel. Resembling lines in sand or natural, Sea grass fibers, panels wrapped in this fabric look to be blowing in the wind. The tan tone shifts from caramel to sand throughout the day in different lighting.

Pebble

Earthy and dramatic. The textured ridges in Pebble trick the eye into seeing peaks and valleys of color. A contradiction of sorts, the cold color can help to warm a room, just like a pebble warming in the sun's rays.

Dune

While Dune is perhaps the most unassuming offering, its richness cannot be overlooked. This beachy color will fit into most any space and complement varied décor from classic to modern and everything in between.

INDUSTRIAL COLLECTION CONCRETE

Concrete is an essential component of industrial interiors. When paired with metal or wood design elements, rooms can shift to a more modern appearance, but a traditional design can easily be achieved as well. Enjoy the warmth and versatility of our exclusive Concrete prints.

Haze

Our most traditional industrial print, Haze offers a light gray concrete look that will brighten up any space with its cooler hues. Choose this design to truly lean into the industrial look, while adding architectural interest to your chosen interior.

Slab

With its realistic looking rivets and distressed finish, our Slab print will blend into today's modern interiors helping to create an accent wall and conversation piece. Layer rich fabrics, wood or metal elements, or pops of color for added interest.
