

OCEANSIDE

ACOUSTIC ECO-PANEL KIT

LAMVIN

A modern office workspace featuring a grey acoustic panel wall, a large black pendant light, and a desk lamp. The desk is white with a grey chair. The wall is covered in dark grey acoustic panels of various sizes, some with photos pinned to them. A large black pendant light hangs over the desk. A desk lamp with a black shade and a wooden base is on the desk. A computer monitor is on the desk. A small potted plant is on a shelf to the right. The floor is made of light-colored wood.

FIND YOUR ZEN
OCEANSIDE ACOUSTIC ECO-PANEL KIT

Achieve solitude with Oceanside, an eco-friendly, customizable acoustic panel set.

Quickly and easily transform your space into the haven you desire. Channel your inner designer to achieve an awe-inspiring and truly unique aesthetic that is as beautiful as it is effective at dampening sound to a breezy whisper.

The set ships complete with 16 panels in 3 sizes and 2 thicknesses, each wrapped in Biodegradable Clean Impact Textiles® from trusted industry-leader, Guilford of Maine. Inspired by nature, choose from 3 textured, muted fabrics for a soft look and even softer sound.

Pebble

Earthy and dramatic. The textured ridges in Pebble trick the eye into seeing peaks and valleys of color. A contradiction of sorts, the cold color can help to warm a room, just like a pebble warming in the sun's rays.

APK-ECO-1301-1205

Sea Grass

Sea Grass is a sensory marvel. Resembling lines in sand or natural, Sea grass fibers, panels wrapped in this fabric look to be blowing in the wind. The tan tone shifts from caramel to sand throughout the day in different lighting.

APK-ECO-1301-1201

Dune

While Dune is perhaps the most unassuming offering, its richness cannot be overlooked. This beachy color will fit into most any space and complement varied décor from classic to modern and everything in between.

APK-ECO-1301-1202

With an environmentally friendly core, Oceanside Acoustical Panels are specifically designed to meet California Section 01350 qualification for clean air emissions.

Manufactured without the use of formaldehyde and wrapped with 100% post-consumer recycled biodegradable fabric, Oceanside is a product you can feel good about.

Beautiful, Earth conscious and acoustically beneficial,

the multi-dimensional, multi-sized panels can create dramatic and playful designs. Use the patterns shown to achieve movement and shadows.
