
SONIC STANDARD PANEL
A CATALYST ACOUSTICS GROUP BRAND
LAMVIN

**This versatile wall and ceiling panel is the ideal solution for spaces with reverberant noise problems. It's easy-to-install on walls or ceilings with your choice of mountings. It is available in a variety of standard sizes and finishes, or completely customizable for specific design applications.**

# SONIC STANDARD PANEL

**SONIC ABSORBER PANELS** core consists of a 6-7 lb. density rigid fiberglass board with no added formaldehyde. Resin hardened edges to reinforce panel perimeter against warping and damage. Your chosen finish selection is bonded directly to the panel face with all edges wrapped carefully and completely to the back of the panel to ensure a straight, flat, wrinkle-free surface with tailored corners.

**A LARGE VARIETY OF STYLISH FINISHES** including fabrics and vinyls are available. See the "Finishes" page on Lamvin.com for a direct link to our recommended suppliers' catalogs which include detailed images of an array of designs. Custom fabrics and printed fabrics are also options. All finishes shall be reviewed for panel stability.
